1. General Introduction

This Guide is for the exclusive use of CIBIL and its Members only. It must not be modified, copied, reproduced or used in part or whole for any purpose, other than specified. CIBIL and its Members recognize the copyright of Dun & Bradstreet (D&B), based on which this Guide has been designed.

This Guide describes how Members should report corporate credit related information to CIBIL. This format should be used for submitting data on all credit facilities in the names of non-individuals only and not for those accounts in the names of individuals. All borrowings in the name of non-individuals, regardless of purpose, should be included in this format. For e.g., a loan to Peter Parker & Co. for the purpose of acquiring a commercial vehicle, for business purpose is to be reported in this format. However, if the same loan were to be in the name of Mr. Peter Parker, the same will not be reported as a Commercial Credit Facility.

CIBIL will accept data from Members, only in the form of electronic data files hereafter called as "Data Input Files".

Members should read this document carefully before using the Commercial Input File Format for the extraction and delivery of data.

The designated personnel from the Systems/ Information Technology Department of the Members must refer to this document in order to develop their data extraction program(s) internally or while using a third party utility.

This document assumes that the reader is familiar with the basic concepts and terms related to credit, data and systems.

2. Description of the File Layout

The Data Input File has the following hierarchy:

- **Field:** Refers to a data element
- **Segment:** Refers to a collection of related fields – for e.g., an instance of a Credit Facility Segment
- **Structure:** Refers to an instance of a Credit Facility Segment and all associated Sub-segments (including Subject and Relationship segment(s), Security segment(s) and Guarantor segment(s))

The Data Input File layout has the description of the segments that make up the Commercial Input File Format and describes the fields that are contained in each segment. The column headings are consistent throughout the document. The layout and the meaning of column headings are described below:

- **Label Position:** The position of a label field in a fixed length segment. For example in Header Segment, label HD starts from position 1.
- **Label:** A two byte label that identifies a field in a fixed length segment. For example Label 01 in Header Segment indicates the Field Name "Member ID"
- **Field Position:** The starting position of a field in a fixed length segment. For example Field Name "Member ID" starts at position 12 in the Header Segment.
- **Field Name:** The name assigned to each data element requested in the Data Input File.
- **Field Option:**
 - ▶ **Required:** Indicates that the data element for the relevant Field Name is to be compulsorily furnished. Non-submission of a 'Required' data element shall render the Data Input File or the Segment or the Structure defective. This may cause rejection of the Data Input File or the Segment or the Structure based on the assigned severity level
 - ▶ **Required Conditionally:** Indicates that the data element for the relevant Field Name is to be compulsorily furnished based on some condition given in the remarks column. For Example "Business Entity Name" in the "Relationship Segment" is a "Required Conditional" field and is required only when the "Related Type" field in the "Relationship Segment" is reported as "1= Business Entity Registered in India" or "3= Business Entity Registered Outside India". Non-submission of a 'Required Conditionally' data element shall render the Data Input File or the Segment or the Structure defective. This may cause rejection of the Data Input File or the Segment or the Structure based on the assigned severity level
 - ▶ **When Available:** Indicates that the data element is not mandatory. However, it shall be submitted wherever information is available with the Member Branch. Some of the 'When Available' information is considered desirable since it is used as secondary filters in 'Search and Access' process and 'Matching' process of the CIBIL system. In case the information on 'When Available' fields is not available, Members are encouraged to capture the

Commercial Input File Format V 3.0

same for the new accounts and update the existing accounts in their database

- ▶ **See Description:** Indicates that Member should refer to the Description column for more instructions. Information shall be furnished in a prescribed manner if certain conditions are met. For example "Borrower D-U-N-S Number" shall be 999999999 if the Member is not aware of a valid D-U-N-S Number assigned to a Borrower by CIBIL.

For all the fields, the Member should refer to the Description column for more instructions. For self explanatory fields, the description would be left blank. Information shall be furnished in a prescribed manner if certain conditions are met. For example "Borrower D-U-N-S Number" shall be 999999999 if the Member is not aware of a valid D-U-N-S Number assigned to a Borrower by CIBIL.

- **Field Type:** Identifies the data type of each field. These are:

- ▶ **Text fields** shall be in capital letters and can contain alpha, numeric, print or alphanumeric characters. (Any printable characters can be used in this type of field i.e. ASCII). When reporting in the Fixed Length format, data must be aligned to the left. If the data length is less than the maximum length permitted in the input file format, then the remaining positions must be filled out with blank spaces. For example the maximum length permitted for Borrower's Name is 125. If the Borrower's Name is ABC Sample Company Limited, this will occupy 25 characters. The balance 99 characters shall be filled with blank spaces.

Original Value in Member's Internal File (contains 25 characters)
"ABC Sample Company Limited"
Value in Input File (will contain 99 characters filled with spaces after the name of Borrower)
"ABC Sample Company Limited"

- ▶ **Numeric:** Only whole numbers (without separators and without decimals i.e. all decimals to be rounded to the nearest whole number) will be accepted and shall be right justified. When reporting in the Fixed Length format, if the data length is less than the maximum length permitted in the input file format, then the leading positions must be filled with zeros. For example the maximum length permitted for Sanctioned Amount (Label 03 of Credit Facility Segment) is 20. If the Sanctioned Amount is 200000, this will occupy 6 characters. The leading 14 characters shall be filled with zeros.

Original Value in Member's Internal File
200000
Value in Input File
00000000000000200000

- ▶ **Date:** All dates should be in DDMMYYYY format. For e.g. 1st July 2007 should be denoted as 01072007

Commercial Input File Format V 3.0

- ▶ **Time:** All time should be in HHMMSS format
- **Field Length:** Indicates the permitted field length applicable for the value of a given Field Name
- **Description:** Contains the instructions to be followed with respect to a Field Name.

Field Name	Field Length	Description
1-10	10	Entity Name
11-15	5	Entity Type
16-20	5	Entity Address
21-25	5	Entity City
26-30	5	Entity State

3. Segment Description of the Commercial Input File Format

Table 1 below describes the various Segments that make up the entire Data Input File.

Segment Identifier	Segment Name	Segment Option	Maximum Number of Entries	Maximum Length
HD	Header	Required	1 per File	100 Bytes
BS	Borrower	Required	n per File	550 Bytes
AS	Address	Required	n per Borrower	950 Bytes
RS	Relationship	When available	n per Borrower	1650 Bytes
CR	Credit Facility	Required	n per Borrower	750 Bytes
GS	Guarantor	When Available	n per Credit Facility	1650 Bytes
SS	Security	When Available	n per Credit Facility	90 Bytes
CD	Dishonour of Cheques	When Available	n per Credit Facility	100 Bytes
TS	File Closure	Required	1 per File	100 Bytes

Header Segment (HD): Is a Required Segment and contains the general information about the Data Input File provided by the Member Branch. It occurs only in the BEGINNING of the Data Input File. It should appear only ONCE in the Data Input File and it will precede the other Segments.

Borrower Segment (BS): Is a Required Segment and contains general data (identification and location data) for each Borrower. The BS Segment can appear several times in the input file, depending on the number of Borrowers, but without repeating the same Borrower per Branch Code.

Address Segment (AS): Is a Required Segment and sub segment of Borrower segment. This segment contains information on Registered, Communication, Warehouse, and Branch addresses related to the Borrower (BS). The AS Segment can appear several times for the same Borrower (BS).

Relationship Segment (RS): Is a When Available Segment and a sub segment of the Borrower Segment. This Segment contains information on Proprietors, Partners, Holding Companies, Subsidiary Companies and Associated Companies related to the Borrower. It can appear multiple times for a Borrower Segment without repeating the same Relationship for a Subject. Member Branch can report two addresses of the Relationship.

Credit Facility Segment (CR): Is a Required Segment and contains information on Credit Facility provided to the Borrower. It should appear at least once in the Data Input File but can appear multiple times for each Borrower in the file depending on

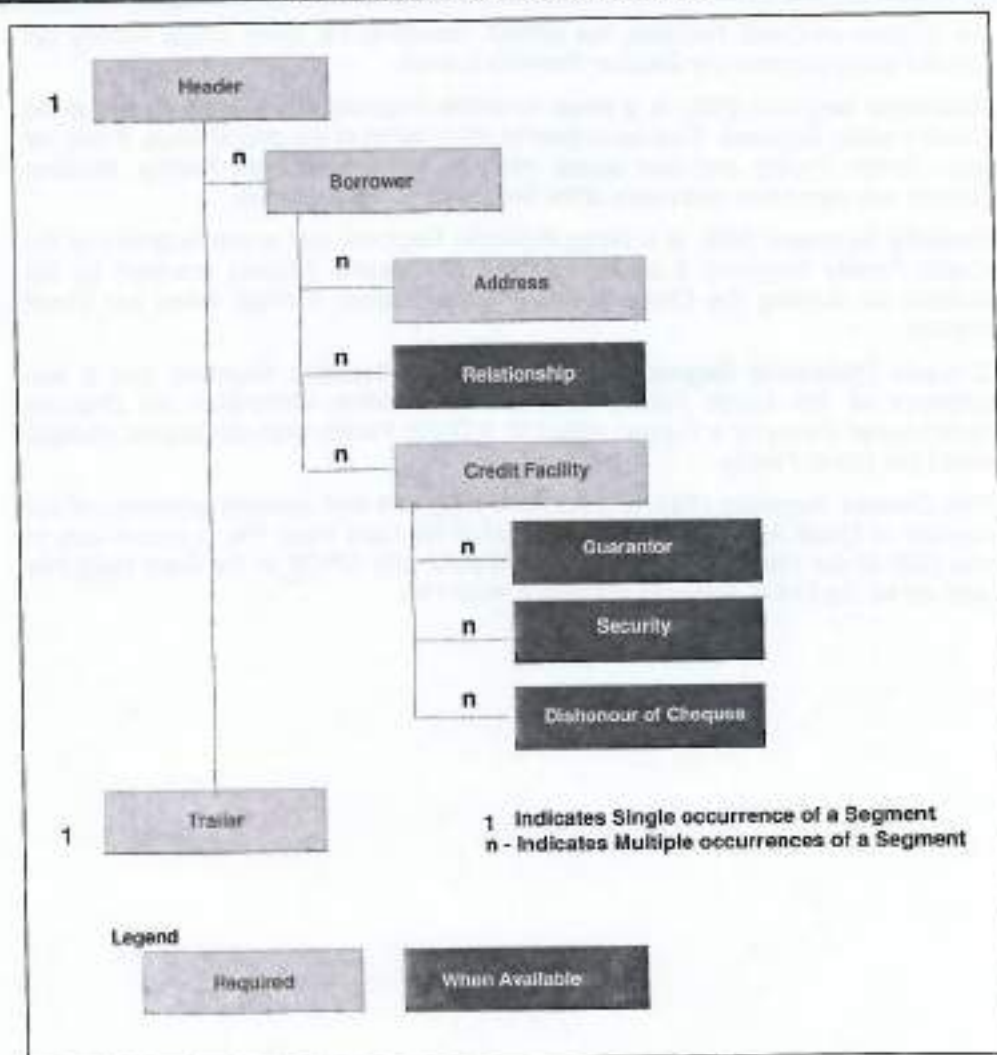

the number of Credit Facilities, but without repeating the same Credit Facility per Credit Facility Number per Member Branch's branch.

Guarantor Segment (GS): Is a When Available Segment and a sub segment of the Credit Facility Segment. It contains general information of the guarantor(s), if any, for each Credit Facility and can appear multiple times per Credit Facility. Member Branch can report two addresses of the Guarantor in this Segment.

Security Segment (SS): Is a When Available Segment and a sub segment of the Credit Facility Segment. It contains details of collateral security provided by the Subject for availing the Credit Facility and can appear multiple times per Credit Facility.

Cheque Dishonour Segment (CD): Is a When Available Segment and a sub segment of the Credit Facility Segment. It contains information on cheques dishonoured if any, by a Subject related to a Credit Facility and can appear multiple times per Credit Facility.

File Closure Segment (TS): Is a Required Segment and contains summary of the number of Credit Facility Segments reported in the Data Input File. It occurs only in the END of the Data Input File. It should appear only ONCE in the Data Input File and will be the FINAL segment in the Data Input File.

4. Format Details – Input File Format

4.1. Method for Input File Submission

Data Providers should submit Input Files only in electronic format. CIBIL will not accept data submission by data providers in hard copies (such as printouts, faxes etc.).

Data Providers can submit their Input File Format using either FTP or manually deliver it to CIBIL using external media.

Electronic	FTP (File Transfer Protocol)
Manual	CD (Compact Disc)

4.2. Formatting of the Input File Format

In the Input File Format, every row corresponds to a Segment and the length of each Segment/ Field can vary. Every instance of a Segment (for e.g. the Borrower Segment details of a borrower) in the Input File should end with a carriage return and line feed [r/n].

Input File can be reported in either the Fixed Length format or the Delimited format; delimited being the preferable and recommended format owing to the ease of preparation and processing files in this format.

Please refer to the document "**CIBIL - Commercial IFF - V3 - Delimited Format (June2011).doc**" for information on how to report data in delimited format

4.3. File Naming Convention

The Input File must always conform to the following naming convention and have a unique file name.

<Member ID>-< Date of file creation & certification in DDMMYYYY format>-<File creation time in HHMMSS format>-<IFF Type ID>.tap

Example – Input file name will be **0000000062-07052011-174052-01.tap** for a file created & certified by Member **000000062**, Created & Certified as on **07052011** (7th May 2010) and Creation time being **174052** (HH 17 MM 40 SS 52)

➤ Following are the Input File Format Type ID

- 01-Commercial IFF
- 02-Cheque Dishonour IFF

- A Member can submit only its own data directly to CIBIL or a Member Branch can submit data of multiple Branches that may be attached to it.

If a Member submits data of multiple Branches following special instructions should be followed:

Commercial Input File Format V 3.0

Consider an example where a Member is submitting data for following Branches for following periods:

Branch 1	Period 30 th June 2002
Branch 2	Period 30 th June 2002
Branch 3	Period 31 st May 2002
Branch 4	Period 30 th June 2002

The Member that submits data to CIBIL can:

- ▶ Create 4 separate input files corresponding to each Branch respectively in which case instructions 2 and 3 below are redundant.
- ▶ If the Member wishes to merge the data of multiple Branches and submit the same to CIBIL, then data for the Branches reporting for the same period should be grouped together. Branch 1, Branch 2 and Branch 4 data should be grouped together in an input file since they all have the same reporting period, which shall be reported in HD (Header Segment).
- ▶ A separate input file should be created for Branch 3 data.

5. Input File Submission Process

Input files can be sent to CIBIL in any of the following media:

No.	Media type	Supported Types	Supported Operating Systems	Supported Backups
1.	CD ROM	All	Windows Operating Systems	Not applicable
2.	DLT	20/40 and 40/80 GB	Windows NT and Windows 2000	Windows NT and Windows 2000 native backup. Backups through Veritas Unix/ NT Client.
3.	DAT	12/24 GB	Windows NT and Windows 2000	Windows NT and Windows 2000 native backup

- Input files sent by CD ROM, DLT and DAT should be accompanied by a covering letter stating the following details of the input file/files and should be signed by an Authorized Signatory. Refer Annexure A on page 53:

- Member ID
- Member Name
- Member Address
- For each input file in the media following information should be provided:
 - Input file name and Reporting Period
 - Date of Input file creation
 - Number of Borrower Segments in the input file
 - Number of Credit Facility Segments in the input file

- Input files can also be sent to CIBIL by FTP. CIBIL will provide
 - FTP address and FTP user ID and password at the time of Member registration.

The input files:

- Should be compressed
 - Should be encrypted
 - Should not contain viruses and
 - Should be password protected
- Only computer readable input files will be accepted. Hardcopy or printed form data will not be accepted.

Please note that input files which do not conform to the above media and/or the above conditions will not be accepted by CIBIL.

6. Important Instructions to be followed while Creating the Data Input File

The following instructions shall be observed strictly and are crucial to properly format data.

- Data Input File should not contain Control Characters such as ~, ^ etc. as this leads to rejection of the entire file
- Each and every segment should end with a carriage return and line feed [\r\n]
- Certain fields must have specific values cited in the Catalogues included in this document
- All Date fields must have a valid calendar date and must be in DDMMYYYY format. For e.g., the date 30th August, 1974 must be reported as 30081974
- All Time fields must have a valid time and must be in HHMMSS format
- File naming convention should be <Member ID>-< Date of file creation & certification in DDMMYYYY format>-<File creation time in HHMMSS format>-<IFF Type ID>.tap. Example – Input file name will be 0000000062-07052011-174052-01.tap for a file created & certified by Member 0000000062, Created & Certified as on 07052011 (7th May 2011) and Creation time being 174052 (HH 17 MM 40 SS 52) IFF type id 01 signifying Commercial.
- Monetary amounts must be expressed in whole numbers (no decimals and without separators). All the fields except the Account Balance / Limit Utilized /Mark to Market field (Credit Facility Segment (CR)) must be reported as positive. The Account Balance / Limit Utilized /Mark to Market field can have negative value, when a loan/ credit facility is in credit balance. Negative values must be prefixed with a minus symbol at the starting position of the field
- In case of multiple loans availed by the Borrower from the same Member Branch, then the information on such loans must be reported SEPARATELY as multiple Credit Facility structures
- If in the Description column, the legend Reserved for future use is displayed, then the corresponding field must be reported blank only
- Annexure A should be provided along with Data Input File when submitted by the Member Branch to CIBIL for a CD based submission. In the interest of security, CIBIL will process only those Data Input Files that are accompanied with Annexure A included in this document
- Segments can appear only in the following sequences:

Table 2

Segment Identifier	Is a Sub Segment of	Immediate following Segment
HD	-	BS
BS	HD	AS
AS	BS	AS/RS
RS	BS	RS/CR
CR	BS	CR/ GS/ SS/ CD/ BS/ TS

- The system will reject the field(s), segment(s) or structure(s) or the entire file in case of:
 - ▶ If the date fields are not in DDMMYYYY format.
 - ▶ If the segment lengths do not match the segment lengths specified in the Input File Format.
 - ▶ If the Required segments are not present in the input file. For example: if there is no Credit Facility Segment present in the Input File for a Borrower.
 - ▶ If the Required fields do not contain data.
 - ▶ If each and every segment in the input file does not end with carriage return and line feed [r/n]
 - ▶ If the number of Borrower Segments reported in "Number of Borrower Segments" (TS 00) and/or number of Credit Facility Segments reported in "Number of Credit Facility Segments" (TS 01) fields in the File Closure Segment are not equal to the actual number of Borrower Segments and/or actual number of Credit Facility Segments in the input file.
 - ▶ If the Date reported in Header segment's "Date of Creation & Certification of Input File" (HD 03) is lesser than the "Reporting/Cycle Date" (HD 04)

7. Commercial Credit Bureau File Format – Data Segments and Data Fields

7.1. Header Segment (HD)

- Is a Required segment
- Contains the general information about the Data Input File provided by the Member Branch
- It should appear only ONCE in the Data Input File
- Occurs only in the BEGINNING of the Data Input File
- It will precede the other Segments
- It has 100 Bytes fixed length

Label Position	Label	Field Position	Field Name	Field Option	Field Type	Field Length	Description
01	HD	03	Segment Identifier	Required	Text	5	Must contain the value CIB03
08	00	10	Member ID	Required	Text	10	Must contain the Identification Number assigned by BUREAU to the Member. If the Member ID changes and the new Member ID is being reported for the first time, complete this field with the new Member ID.
20	01	22	Previous Member ID	Required Conditionally	Text	10	To be used in the immediate submission, following a merger or acquisition between 2 existing Members. Previous Member ID may have to be obtained from CIBIL.
32	02	34	Date of Creation & Certification of Input File	Required	Date	8	Date when the Data Input File was created/ extracted/ generated & certified from the Member Branch's system. Must be valid calendar date and in DDMMYYYY format.

Commercial Input File Format V 3.0

Label Position	Label	Field Position	Field Name	Field Option	Field Type	Field Length	Description
42	03	44	Reporting / Cycle Date	Required	Date	8	Date up to which information is reported. This is not the date on which the Data Input File was created nor the date of extraction. Must be a valid calendar date and in DDMMYYYY format. E.g. ABC Bank reports data as on March 31, 2006, extracts the Data Input File on April 05, 2006 and submits the date to CIBIL on April 12, 2006. In this case, the reporting date will be 31032006.
52	04	54	Information Type	Required	Text	2	It should contain 01
56	05	58	Filler	When Available	Text	43	Reserved for future use. This field is to be left blank

**7.2. Borrower Segment (BS)**

- Is a Required segment
- Contains information on the Borrower
- It should appear only once per each borrower reported
- It can appear multiple times per the Data Input File without repeating the same Borrower per Branch ID
- It has 550 Bytes fixed length

Label Position	Label	Field Position	Field Name	Field Option	Field Type	Field Length	Description
01	BS	03	Segment Identifier	Required	Text	2	It must be BS.
05	00	07	Member Branch Code	Required	Text	15	Identification code of the member's branch where the credit facility has been granted. If the Member Branch code changes and the new Member Branch code is being reported for the first time, complete this field with the new Member Branch code. Provide the old Member Branch code in the Previous Member Branch code.
22	01	24	Previous Member Branch Code	Required Conditionally	Text	15	Must contain the previous Identification code of the member's branch where the credit facility had been granted. The Previous Identification Number should be provided in the immediate submission following a change in Member Branch Code due to merger or acquisition or any other reason. Hence, post a merger or acquisition or any such reason prompting a change in the Member Branch Code, the Previous Member Branch Code becomes a Required field in the submission immediately following such a change.
39	02	41	Borrower's Name	Required	Text	125	Legal Business Name of Borrower
166	03	168	Borrower Short Name	When Available	Text	20	Borrower's Short Name

Commercial Input File Format V 3.0

Label Position	Label	Field Position	Field Name	Field Option	Field Type	Field Length	Description
188	04	190	Company Registration Number	When Available	Text	30	Company Registration Number issued by Registrar of Companies
220	05	222	Date of Incorporation	When Available	Text	8	The date on which the Business is Registered / Incorporated
230	06	232	PAN	When Available	Text	15	Permanent Account Number issued by Income Tax Authority
247	07	249	CIN	When Available	Text	30	Corporate Identification Number
279	08	281	TIN	When Available	Text	30	Tax Identification Number for Non-Individuals issued by Income Tax Authority
311	09	313	Service Tax #	When Available	Text	30	Service Tax Registration Number issued by Central Excise Authority
343	10	345	Other ID	When Available	Text	30	Reserved for future use. This field is to be left blank.
375	11	377	Borrower's Legal Constitution	Required	Text	2	Refer to Legal Constitution catalogue on page 38 for a list of valid values.
379	12	381	Business Category	Required	Text	2	Refer to Business Category catalogue on page 38 for a list of valid values.
383	13	385	Business/ Industry Type	Required	Text	2	Refer to Business / Industry Type catalogue on page 38 for a list of valid values.
387	14	389	Class of Activity 1	Required Conditionally	Text	5	Classification of Activity/Occupation as per Reserve Bank of India, Handbook of Instructions, Basic Statistical Returns 1 and 2, Latest Edition Class of Activity is to be mandatorily reported for Individual borrowers.
394	15	396	Class of Activity 2	When Available	Text	5	Classification of Activity/Occupation as per Reserve Bank of India, Handbook of Instructions, Basic Statistical Returns 1 and 2, Latest Edition

Commercial Input File Format V 3.0

Label Position	Label	Field Position	Field Name	Field Option	Field Type	Field Length	Description
401	16	403	Class of Activity 3	When Available	Text	5	Classification of Activity/Occupation as per Reserve Bank of India, Handbook of Instructions, Basic Statistical Returns 1 and 2, Latest Edition
	17	410	SIC Code	When Available	Text	20	Standard Industrial Classification code to specify which industry the company belongs to
430	18	432	Sales Figure	When Available	Numeric	20	Sales Figure as of Previous Financial year (year before the current running financial year) is to be reported.
452	19	454	Financial Year	When Available	Date	8	Financial year for which Sales information is provided
462	20	464	Number of Employees	When Available	Numeric	8	This includes the count of permanent employees
472	21	474	Borrower Level Rating	When Available	Text	10	Credit Rate or Score issued by recognized Assessment agencies or Authorities
484	22	486	Assessment Agency / Authority	Required Conditionally	Text	2	Report this field when Borrower Level Rating is reported. Refer to 8.19 Assessment Agency/Authority on page 50 for a valid list of catalogue values
488	23	490	Credit Rating As On	When Available	Date	8	Date Credit Rating was issued
498	24	500	Credit Rating Expiry Date	When Available	Date	8	Date until which the Credit Rating is Valid
508	25	510	Filler	When Available	Text	41	Reserved for future use. This field is to be left blank.

7.3. Address Segment (AS)

- Is a Required Segment
- This is a sub segment of the Borrower Segment
- It should appear at least once per Borrower
- It can appear multiple times per Borrower
- It has 950 Bytes fixed length

Label Position	Label	Field Position	Field Name	Field Option	Field Type	Field Length	Description
01	AS	03	Segment Identifier	Required	Text	2	It must be AS.
05	00	07	Borrower Office Location Type	Required	Text	2	Refer to Location Type catalogue on page 39 for a list of valid values. Registered Address is Mandatory.
09	01	11	Borrower Office DUNS Number	See Description	Text	13	Report D-U-N-S Number assigned specifically for the Registered Office of the Borrower. If D-U-N-S Number has not been assigned, return 999999999
24	02	26	Address Line 1	Required	Text	200	The address is to be parsed logically under the fields Address Line1, Address Line2, Address Line3, City/Town, District, State/ Union Territory. If this is not possible, the entire address should appear in Address Line1. In such case report City/Town Name appropriately, without truncating or splitting into the next field. Do not truncate. Use comma separated values. Do not split whole words. If insufficient, please use Address Line 2 and Address Line 3
226	03	228	Address Line 2	When Available	Text	200	
428	04	430	Address Line 3	When Available	Text	200	
630	05	632	City/Town	When Available	Text	40	
672	06	674	District	When Available	Text	40	
714	07	716	State/Union Territory	When Available	Text	2	Refer to State catalogue on page 39 for a list of valid values.
718	08	720	Pin Code	When Available	Text	6	

Commercial Input File Format V 3.0

Label Position	Label	Field Position	Field Name	Field Option	Field Type	Field Length	Description
726	09	728	Country	When Available	Text	3	Report default Value 079 (India)
731	10	733	Mobile Number(s)	When Available	Text	55	Use comma separators for multiple numbers
788	11	790	Telephone Area Code	When Available	Text	6	
796	12	796	Telephone Number(s)	When Available	Text	55	Use comma separators for multiple numbers
853	13	855	Fax Area Code	When Available	Text	6	
861	14	863	Fax Number(s)	When Available	Text	55	Use comma separators for multiple numbers
918	15	920	Filler	When Available	Text	31	Reserved for future use. This field is to be left blank.

7.4. Relationship Segment (RS)

- Is a When Available Segment
- This is a sub segment of the Borrower Segment
- Contains information on Directors, Share Holders, Proprietors, Partners, Trustees, Holding Companies, Subsidiary Companies and Associated Companies related to the Subject
- It can appear multiple times for a Borrower
- It has 1650 Bytes fixed length

Label Position	Label	Field Position	Field Name	Field Option	Field Type	Field Length	Description
01	RS	03	Segment Identifier	Required	Text	2	It must be RS.
05	00	07	Relationship DUNS Number	See Description	Text	13	Report D-U-N-S Number assigned specifically for the Registered Office of the Related Entity. If D-U-N-S Number has not been assigned, return 999999999
20	01	22	Related Type	Required	Text	1	1= Business Entity Registered in India 2=Resident Indian Individual 3= Business Entity Registered Outside India 4= Foreign/Non-Resident Indian Individual
23	02	25	Relationship	Required	Text	2	Refer to Type of Relationship catalogue on page 40 for a list of valid values.
27	03	29	Business Entity Name	Required Conditionally	Text	125	Required if RS Label 01 =1 or 3
154	04	156	Business Category	Required Conditionally	Text	2	Required if RS Label 01 =1 or 3 Refer to Business Category catalogue on page 38 for a list of valid values.
158	05	160	Business / Industry Type	Required Conditionally	Text	2	Required if RS Label 01 = 1 or 3 Refer to Business / Industry Type catalogue on page 38 for a list of valid values.
162	06	164	Individual Name Prefix	When Available	Text	15	Mr, Ms, Mrs, Dr, etc., Only when RS Label 01 =2 or 4
179	07	181	Full Name	Required Conditionally	Text	150	Required if RS Label 01 =2 or 4

Commercial Input File Format V 3.0

1591	35	1593	Filler	When Available	Text	58	Reserved for future use. This field is to be left blank.

7.7. Security Segment (SS)

- Is a When Available Segment
- This is a sub segment of the Credit Facility Segment
- It can appear multiple times per Credit Facility
- It has 90 Bytes fixed length

Label Position	Label	Field Position	Field Name	Field Option	Field Type	Field Length	Description
01	SS	03	Segment Identifier	Required	Text	2	It must be SS
05	00	07	Value of Security	Required	Numeric	20	Value of the Security as on the date of Valuation.
27	01	29	Currency Type	Required	Text	3	Refer to "Currency Code – ISO code 421" catalogue on page40 for a list of valid values.
32	02	34	Type of Security	Required	Text	3	Refer to Security Type catalogue on page 46 for a list of valid values.
37	03	39	Security Classification	Required	Text	2	Refer to Security Classification catalogue on page46 for a list of valid values.
41	04	43	Date of Valuation	When Available	Date	8	The latest date on which the valuation was done.
51	05	53	Filler	When Available	Text	38	Reserved for future use. This field is to be left blank.

7.8. Dishonour of Cheques Segment (CD)

- Is a When Available Segment
- This is a sub segment of the Credit Facility Segment
- Contains information on cheques dishonoured, if any, by a Subject related to a Credit Facility
- It can appear multiple times per Credit Facility
- Only Cheques dishonoured due to Insufficient Funds or Closed Accounts need to be reported
- It has 100 Bytes fixed length

Label Position	Label	Field Position	Field Name	Field Option	Field Type	Field Length	Description
01	CD	03	Segment Identifier	Required	Text	2	It must be CD
05	00	07	Date of Dishonour	Required	Date	8	Mention the cycle in which the cheque has been dishonoured
15	01	17	Amount	Required	Numeric	20	Amount of the cheque dishonored
37	02	39	Instrument / Cheque Number	Required	Text	30	
69	03	71	Number of times dishonoured	Required	Numeric	10	Number of times the cheque was dishonoured
81	04	83	Cheque Issue Date	Required Conditionally	Date	8	To be provided only in case of single cheque dishonoured.
91	05	93	Reason for Dishonour	Required	Text	2	Refer to catalogue Reason for Dishonour on page 51 for a valid list of values
95	06	97	Filler	When Available	Text	4	Reserved for future use. This field is to be left blank.

7.8. Dishonour of Cheques Segment (CD)

- Is a When Available Segment
- This is a sub segment of the Credit Facility Segment
- Contains information on cheques dishonoured, if any, by a Subject related to a Credit Facility
- It can appear multiple times per Credit Facility
- Only Cheques dishonoured due to Insufficient Funds or Closed Accounts need to be reported
- It has 100 Bytes fixed length

Label Position	Label	Field Position	Field Name	Field Option	Field Type	Field Length	Description
01	CD	03	Segment Identifier	Required	Text	2	It must be CD
05	00	07	Date of Dishonour	Required	Date	8	Mention the cycle in which the cheque has been dishonoured
15	01	17	Amount	Required	Numeric	20	Amount of the cheque dishonored
37	02	39	Instrument / Cheque Number	Required	Text	30	
69	03	71	Number of times dishonoured	Required	Numeric	10	Number of times the cheque was dishonoured
81	04	83	Cheque Issue Date	Required Conditionally	Date	8	To be provided only in case of single cheque dishonoured.
91	05	93	Reason for Dishonour	Required	Text	2	Refer to catalogue Reason for Dishonour on page 51 for a valid list of values
95	06	97	Filler	When Available	Text	4	Reserved for future use. This field is to be left blank.

7.9. File Closure Segment (TS)

- Is a Required segment
- Contains summary of the number of Credit Facility Segments reported in the Data Input File
- Occurs only in the END of the Data Input File
 - Should appear only ONCE in the Data Input File
 - Will be the FINAL segment in the Data Input File
- It has 100 Bytes fixed length

Label Position	Label	Field Position	Field Name	Field Option	Field Type	Field Length	Description
01	TS	03	Segment identifier	Required	Text	2	It must be TS
05	00	07	Number of Borrower Segments	Required	Numeric	10	Total number of Borrower Segments reported in the file
17	01	19	Number of Credit Facility Segments	Required	Numeric	15	Total number of Credit Facility Segments reported in the file
34	02	38	Filler	When Available	Text	65	Reserved for future use. This field is to be left blank.

About D&B D-U-N-S® Number

The D&B D-U-N-S® Number is a unique nine-digit identification sequence, which provides unique identifiers of single business entities, while linking corporate family structures together.

D&B links the D&B D-U-N-S® Numbers of parents, subsidiaries, headquarters and branches on more than 64 million corporate family members around the world. Used by the world's most influential standards-setting organizations, it is recognized, recommended and/or required by more than 50 global, industry and trade associations, including the United Nations, the U.S. Federal Government, the Australian Government and the European Commission.

In today's global economy, the D-U-N-S® Number has become the standard for keeping track of the world's businesses.

The D&B D-U-N-S® Number assigned to a business entity does not change even though they said business entity may change its name or location.

CIBIL has adopted the D&B D-U-N-S® Number as the unique identifier of business entities in its database.
